

Victor Enterprises Inc., Quality Policy

Victor Enterprises Inc., Quality Management System drives our personnel to achieve quality excellence and exceed customer expectation in all our activities. This is achieved through the efforts of every employee to strive for superior quality through the elimination of errors, the minimization of waste and to drive continuous improvement in everything they do.

With over 150 years of experience, and knowledge, our highly dedicated and competent staff are committed to ensuring that all work will be consistently manufactured to conform to or exceed customer specifications, safety regulations and quality expectations.

Victor Enterprises Inc., maintains the Quality Policy as documented information and it is available to all employees and interested parties on request to our Quality Representative. The suitability and adequacy of our Quality Policy is reviewed annually by our Management Team as part of our management review meeting.

Victor Enterprises Inc., takes great pride in the professional quality of our work and are committed to maintaining our quality management systems certification to AS9100, complying with applicable statutory/regulatory and customer/government requirements, setting and reviewing our quality objectives as part of our management review system and continually improving the effectiveness of our Quality Management System.
